Subject: Central Sands Dairy, LLC Private Well Testing

Hello Tom:

I am planning on sampling private wells for Total Coliform, E.coli, Nitrate-Nitrite, TKN, Ammonia-Nitrogen, and Total Phosphorus in Nekoosa, WI near fields owned by Central Sands Dairy, LLC on Monday, October 23 through Wednesday, October 25. I had been talking with Joe Janczy about this facility and groundwater pathways and the sampling, before he retired. Would there be someone else that you would recommend to help me with this investigation. It would be helpful to discuss what I should be aware of when I am sampling and any questions or concerns I need to ask or do before or while I am collecting my samples from these private wells?

Sincerely,

Cheryl Burdett
